

CARDINAL FG 
A CARDINAL GLASS INDUSTRIES COMPANY

Elegance Against the Elements

HydroClear® Invisible anti-corrosive coating shields glass from the corrosive effects of water, heat, and humidity for alluring design that never goes dull. **Invisible. Permanent. Protection.**

HydroClear® is ideal for interior glass applications such as:

- Shower enclosures
- Shower glass doors
- Bathrooms
- Spas
- Swimming pool enclosures
- Hot tub enclosures

The clear advantage of HydroClear® for interior design

Unlike aftermarket glass corrosion inhibitors and corrosion-protected glass products, Cardinal HydroClear® is fused directly to the glass during the manufacturing process for corrosion protection that is:

Permanent No need to reapply, **HydroClear®** coating protects against effects of water, heat, and humidity for the life of the product.

Easy to maintain Regular maintenance with a non-abrasive residential cleaning agent effectively maintains that first-day shine.

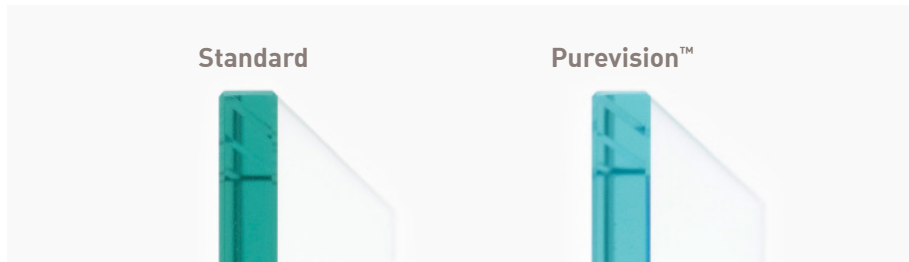

Guaranteed by a Limited Lifetime Warranty **HydroClear®** glass products are guaranteed by Cardinal FG's Limited Lifetime Warranty.

Introducing Purevision™ with HydroClear®

Purevision low-iron glass offers striking color accuracy and a highly attractive Icelandic blue edge. Its nearly colorless appearance and enhanced light transmittance heighten the aesthetic of any application, including bathrooms, saunas, and more.

Now, you can ensure the lasting clarity of Cardinal's Purevision glass with HydroClear anti-corrosive coating. Protect against unsightly corrosion from water, heat, and high humidity to maintain the striking elegance of your Purevision glass.

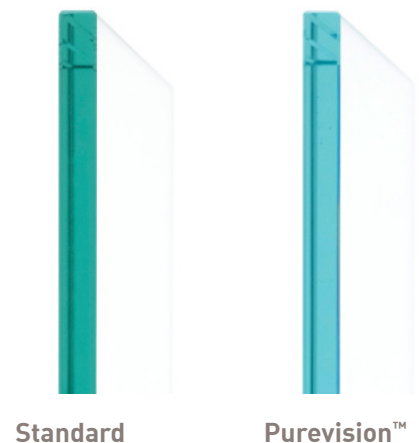

Purevision™ with HydroClear is ideal for interior applications, such as: showers & baths, pool enclosures and saunas.

	Invisible	Bonded During Float Production	Icelandic Blue Edging	Limitless Applications	Permanent Corrosion Protection	Accurate Color Rendering
